

## Research Task Force (RTF) Meeting Jan 19<sup>th</sup> 2023 (Zoom)

Present:

- Jonathan Bird (chair)
- Sylvain Dore
- Mark Segal
- Lisa Merlo
- Katya Lobanova
- Mark Moehle
- Apologies received: Bhavana, Paramita and Robert

RTF convened and discussed priorities to focus on for the coming year. JB gave an IT update, with the announcement that UFHealth IT will soon be rolling out Permissive Account Management (PAM) that will allow for some admin privileges on a temporary basis. UF has also signed an agreement with Lab Archives providing enterprise ELN services for faculty / staff / students. The ELN service is now live!

Of priorities to focus on, those present discussed and agreed that building more robust pipelines for recruiting laboratory / technical staff is key. JB will reach out to Santa Fe and Biotility to explore possible training / employment synergies. Also discussed providing a central online service to aggregate all talks / presentations at UFHealth IT in one convenient location (MS agreed to look into Teams as a potential tool).

Meeting adjourned.
